Read the passage below and then answer questions 88-100

Meja is the policeman in our countryside. He wears a grey shirt, a khaki short, black shoes paths on his legs and a red fez cap on his head.

Meja is a very <u>amiable</u> person. He keeps smiling all the time. He never gets to cross with anyone. He follows all the rules a policeman ought to obey. When he comes, he watches our game with a deep interest. He sometimes joins us in our games too.

When he is on duty he never goes anywhere but stays at his place of duty. One day a friend of mine had lost his way to my house and it was Mbaka who directed him to my place.

He is never a friend to anyone breaking the law. One day, I saw him halting his best friend for riding a bicycle with two people on it. He did it because he is a good policeman.

We are really lucky to have him in our countryside. He is a lover of animals too. Once in a while on his bike he marked a small helpless kitty. He took it to a place of safety.

1. The diagram below represents the female reproductive system.

	The parts labelled P, Q and R respectively are: A. Ovary, oviduct, cervix B. Ovule, womb, vagina C. Ovary, fallopian tube, oviduct D. Vagina, womb, cervix	
2.	Which one of the following parts of the male reproductive system has a similar function as part marked P above? A. Penis B. Urethra C. Scrotums D. Testis	
3.	Which one the following is NOT part of female reproductive system? A. Vagina B. Ovule C. Oviduct D. Cervix	
4.	Which of the following parts of the male reproductive system enables urine to pass out? A. Penis B. Testis C. Urethra D. Spermduct	
5.	Which of the following physical changes occurs in boys ONLY? A. Deepening of voice B. Enlargement of breasts C. Menstruation D. Pimples on the face	
6.	Which of the following part is CORRECTLY matched with its function A. Uterus - where the baby passes during birth B. Testis - produce fluids which sperms swim C. Oviduct - allows the egg to move from the ovary D. Penis - allow the passage of egg from the ovary
