**Broken passage 4**

**Fill each blank space in the following passage with the best alternative**

Measles is a deadly disease, especially among young children 1 is spread through contact, 2 infected mucus and saliva. It 3 cause severe diarrhoea, pneumonia, vision loss or even death. Unfortunately, the 4 measles, a viral infection and a high contagious disease, is a major 5 in the steady progress made over the years in the improvement of public health. Ironically, this is happening 6 there is an effective answer to this great threat, which is the sustained vaccination 7 in children.

Definitely, there 8 a significant increase not only in infections, 9 in the number of deaths. This increase in measles cases points to gaps in vaccination coverage. Sadly, vaccination has 10 as a result of misinformation, mistrust in immunisation and baseless claims made 11 the vaccine, discouraging some parents 12 taking their children for jabs. This highly publicised opposition 13 vaccination by some religions or sections of people contributes 14 threatening prevention. 15 we all unite in the fight, our efforts will be fruitless.

## COMPREHENSIONS

### Passage One

Today, not all people regard good behaviour highly. In fact, a lot of people are ignorant about good behaviour. These people do not use terms such as "please," "sorry" and "thank you." This could be because the use of these words is regarded by some as a sign of weakness in one's character. A person who repeatedly and constantly uses these is termed as *sheepish*. If anyone forces such people to use this polite language, he or she is branded as dictator. However, people with good behaviour use polite language.

It is certainly possible to over-use polite words, consequently sounding ridiculous. For example, the use of "yes teacher" or "no teacher" for every response a pupil makes can make the pupil sound strange and irritating.

However the correct use of polite words is not in any way a sign of weakness. If anything, the pupil who uses such language / words is considered well-mannered. A pupil who goes to the teacher and says, "I want to go out now" without bothering to use word such as "may I go out" may fail to get permission. Good manners in a pupil's speech are therefore very necessary. In the work place, both the bosses and juniors should embrace polite language.

A person's social worth is not, however, judged by the language alone but also by his or her actions. Pushing others in public places or while getting on a bus is typical of a selfish, mean person. Refusing to give up a seat to old people and invalids in hospitals or failing to show consideration to the helpless is unkind. To earn the title "well-mannered" one must also take into account what one does.

It is important to emphasize that all members of the community should have good manners. Everybody, no matter what their social status in the society is, needs to be courteous. This includes leaders such as head teachers and people in high positions. It is not below their dignity for the leaders or superiors to say "Could you please do this" while addressing their juniors. If anything, it is an obligation to address or treat juniors politely. A boss has to set a good example that is to be copied. It is said that courtesy costs nothing. A person in a position of power who insults others is to blame if his or her juniors become hostile and unproductive. Anyone whose language is impolite has no one to blame if he gets isolated from the society.

In addition, our society judges other social worth through gestures, facial expressions and mannerisms. At times we do things subconsciously without knowing that other people take note of them. For instance a girl of ten who giggles, will be termed as childish and will rarely be taken seriously. On the other hand, a boy who is always frowning and rarely smiles is likely to be regarded as unsociable. Therefore, a person's character is judged by what one does either consciously or subconsciously.

### **Passage 3**

Life is a journey filled with lessons, hardships, heartaches, joys, celebration and special moments that will ultimately lead us to our destination, our purpose in life. The road will not always be smooth; in fact, throughout our travels, we shall encounter many challenges.

Some of these challenges will test our courage, strengths, weaknesses and faith. Along the way, we may stumble upon obstacles that will come between the paths that we are destined to take. In order to follow the right path, we must overcome these obstacles. Sometimes **these obstacles are really blessings in disguise** only we do not realize that at the time.

Along our journey, we shall be confronted with many situations. Some will be filled with joy and some will be filled with heartache. How we react to what we are faced with determines what kind of outcome the rest of our journey throughout life will be like.

When things do not always go our way, we have two choices to make. We can focus on the fact that things did not go how we had hoped they would and let life pass us by. On the other hand, we can make the best out of the situation and know that these are temporary setbacks and find the lessons that are to be learned.

Time stops for no one, and if we allow ourselves to focus on the negative, we might miss out on some really amazing things life has to offer. We cannot go back to the past, we can only take the lessons that we have learned and the experiences that we have gained from it and move on. It is because of the heartaches, as well the hardships, that in the end, we become a stronger person. The people we meet on our journey play significant roles in our lives.

As much as some people are unimportant to us, there are several values that we can learn from them. It is not good to look down on anyone irrespective of their social status, ethnic background or political affiliation. As we tolerate other people, we acquire the virtues of humility. Without this, we are worse off than a hermit. Who would want to keep to himself for the rest of his life on earth?

Throughout this adventure, people will give you advice and insights, how to live your life. However, when it all comes down to it, you must always do what you feel is right. Always follow your heart and most importantly never

have any regrets. The determining factor when choosing what to do is morality and fairness to others.

It is often said that what does not kill you will make you stronger. It all depends on how one defines the word "strong." It can have different meanings to different people. In this sense "stronger" means looking back at the person you were and comparing to the person you have become today. It also means looking deep into your soul and realizing that the person you are today could not exist if it were not for the things that you have met. Everything that happens in our life happens for a reason and sometimes that means we must face heartaches in order to experience joy.

$$\frac{1}{3} \text{ of } \frac{8}{9} - \frac{5}{18}$$

**Solution**

**Apply BODMAS**

$$\text{Numerator: } \frac{1}{5} + \frac{1}{8} \div \frac{5}{16} =$$

$$\text{Division: } \frac{1}{8} \div \frac{5}{16} = \frac{1}{8} \times \frac{16}{5} = \frac{16}{40} = \frac{2}{5}$$

$$\text{Rewrite } \frac{1}{5} + \frac{2}{5} = \frac{3}{5}$$

$$\text{Denominator: } \frac{1}{3} \text{ of } \frac{8}{9} - \frac{5}{18}$$

**Apply BODMAS**

$$\text{Of: } \frac{1}{3} \text{ of } \frac{8}{9} = \frac{1}{3} \times \frac{8}{9} = \frac{8}{27}$$

Ama kwa hakika katika mwongo huu wa kufunga karne ya ishirini tumeshuhudia dunia yetu ikicharazwa kwa mikasa mithili ya mtoto aliyepotoka aadhibiwayo na mzazi. Kadri upotovu wa mtoto uendeleavyo kuongezeka ndivyo adhabu nayo inavyoongezeka mpaka mabadiliko mema yapatikane.

Si jambo la mjadala tena kusema kuwa kwa jumla walimwengu wa sasa ni wapotovu kuliko wa miaka hamsini iliyopita. Licha ya hivyo misikiti na makanisa hujaa waumini tele. Hawa husomewa maandishi matakatifu na kusesitiziwa umuhimu wa maadili kila mara. Inaonekana ni kweli sikio la kufa halisikii dawa.

Je, kuna uhusiano kati ya kudidimia kwa uadilifu na mikasa iliyokumba dunia yetu katika mwongo huu? Watu wengi wanaamini upo uhusiano.
