KENYA HIGH SCHOOL MOCK 2020 AGRICULTURE PAPER 1

SECTION A: (30 marks)

	1. State two types of labour records	(1 mark)	
	2 Give two wards a true of the second se	(
	2. Give two ways in which bush clearing is used as a land reclamation method	(1 mark)	
į.	3. Outline four reasons of sub soiling	(2 marks)	
	4. State four characteristics considered when selecting a pasture crop		
	som omdeteristics considered when selecting a pasture crop	(2 marks)	
		1	
	5 Give four advantages of raising tomatoes seedlings in a nursery bed		
1.41	g thisters becamigs in a nursery bed	(2 marks)	
			٠
	6 Give four piezes of in C		
	6 Give four pieces of information contained in a title deed	(2 marks)	
		(2 marks)	
71	Differentiate the following terms as used in crop production		
	and tonowing terms as used in crop production	(2 marks)	
a	a) Thinning and pricking out	,, ,	
	· · · · · · · · · · · · · · · · · · ·		

b) Nursery bed and a seedling bed

8. State four advantages of mixed farming (2 marks)
9. Name two diseases of cabbage (1 mark)

11. Give two advantages of mixed stand pasture (1 mark) 12. Name two classes of weeds on the basis of each of the following (2 mark) (a) Growth cycle (2 mark) (b) Plant morphology (2 marks) 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) SECTION B (20 MARKS) 18. Below is a graphical representation of the law of diminishing returns	10. State four characteristics of ag	groforestry tree species		(2 marks)
 12. Name two classes of weeds on the basis of each of the following (2 mark) (a) Growth cycle (2 marks) (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns a graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 				(2 mars)
 12. Name two classes of weeds on the basis of each of the following (2 mark) (a) Growth cycle (2 marks) (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns a graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 	11 Give two advantages of mixed	stand nosture		
 (a) Growth cycle (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16. Outline four effects of early defoliation of pasture crops (2 marks) 16 Outline four effects of the million acre scheme (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of galaxies graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 		stand pasture		(I mark)
 (a) Growth cycle (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16. Outline four effects of early defoliation of pasture crops (2 marks) 16 Outline four effects of the million acre scheme (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of galaxies graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 				
 (a) Growth cycle (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16. Outline four effects of early defoliation of pasture crops (2 marks) 16 Outline four effects of the million acre scheme (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of galaxies graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 				· · ·
 (b) Plant morphology 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16. Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returms Output of galaxies (2 marks) 18. Below is a graphical representation of the law of diminishing returms (a) E (b) Plant methods in each of the zones marked i, ii, iii in relation to output (3 marks) 	12. Name two classes of weeds on	the basis of each of the	following	(2 mark)
 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns 	(a) crown cycle			
 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns 		10	. 4	
 13. Give two reasons for proper storage of maize before storage (2 marks) 14. Outline four disadvantage of organic manure to small scale farmers (2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns 				· ·
 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of potatoes a graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 	(b) Plant morphology		i	
 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of potatoes a graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 		~ .		
 14. Outline four disadvantage of organic manure to small scale farmers -(2 marks) 15. Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) 18. Below is a graphical representation of the law of diminishing returns Output of potatoes a graphical representation of the law of diminishing returns (a) E xplain what happens in each of the zones marked i, ii, iii in relation to output (3 marks) 	13. Give two reasons for proper st	orage of maize before sto	1000	(a
 15.Give four methods of controlling storage pests (2 marks) 16 Outline four effects of early defoliation of pasture crops (2 marks) 17 What were the objectives of the million acre scheme (2 marks) SECTION B (20 MARKS) 18.
